Knowledge of that which is so notorious that everybody, including judges,
knows it, and hence need not be proved.

UCc / UBc lien levy filings and civil insurance bond claims

**SOVEREIGN COURT OF INTERNATIONAL JUSTICE
ABORIGINAL CONSULAR COURT AND INSULAR TRIBUNAL
WORLD MARTIAL AUTHORITY JURISDICTION**

Claim No:

BETWEEN: THE PEOPLE OF ENGLAND, WALES, SCOTLAND AND IRELAND

(by representative claim pursuant to Natural Law, UCc 1-200, and Customary International Law; in protection of English common law as intangible cultural heritage, inalienable natural rights, and the right to truth regarding bioweapon deployment)

Claimant

- and -

1. THE CABINET OFFICE
2. THE HOME SECRETARY
3. THE NATIONAL POLICE CHIEFS' COUNCIL
4. THE INFORMATION COMMISSIONER
5. THE LADY CHIEF JUSTICE FOR ENGLAND AND WALES
6. THE CHAIR OF THE PUBLIC ADMINISTRATION AND CONSTITUTIONAL AFFAIRS COMMITTEE
7. THE SECRETARY OF STATE FOR JUSTICE
8. THE COMMISSIONER OF POLICE OF THE METROPOLIS
9. NAMED TORTFEASORS (II. FACTS, (S))

Defendants/Tortfeasors

PARTICULARS OF CLAIM

(Constitutional Tort; Misfeasance in Public Office; Breach of English Common Law; Violation of Intangible Cultural Heritage under International Law; Breach of Inalienable Natural Rights and Fundamental Human Rights under Customary International Law, the Geneva Convention 1930, and the Biological Weapons Convention 1972; Concealment of Bioweapon Deployment; Judicial Review under Sovereign Jurisdiction)

BROUGHT BEFORE THE SOVEREIGN COURT OF INTERNATIONAL JUSTICE

BY Deputy Martial Stephen V Marshall

AND Deputy National Martial Phil McLoughlin

BOTH OF THE WORLD MARTIAL AUTHORITY

AND LICENSED JUDICIARY OFFICIALS OF THE SOVEREIGN COURT OF INTERNATIONAL JUSTICE (Note: Martial is spelled as such, per sovereign authority and natural law orthography.)

I. JURISDICTIONAL FOUNDATION

1. This claim is duly brought before the Sovereign Court of International Justice (SCIJ), vested with supranational jurisdiction under UCc 1-200, customary international law, the Biological Weapons Convention (BWC) 1972, and the ancient Royal Alliance of Independent States (RAIS) principles, as certified by the Magna Carta Bar Chambers (MCBC).
 2. As Deputy Martial Stephen V Marshall and Deputy National Martial Phil McLoughlin, licensed judiciary officials of the World Martial Authority (WMA), Aboriginal Consular Court, and Insular Tribunal, we invoke aboriginal martial law jurisdiction to enforce natural law supremacy, suspending all civil statutory agencies, processes, and bureaucrats under UCc 1-200, and to compel disclosure of bioweapon deployment concealed by Operation Talla.
 3. This Tribunal operates sui juris at law, affirming the People's sovereign birthright to truth, bodily integrity, and protection from state-sponsored biological warfare.
-

II. FACTS

F. Martin Hewitt's Witness Statement: The NPCC's Perjury Before the Inquiry

81. On 29 June 2023, Martin Hewitt, former Chair of the National Police Chiefs' Council (NPCC), submitted a witness statement (INQ000216925) to the UK Covid-19 Inquiry on behalf of the NPCC.

82. In this statement, Hewitt falsely claimed:

- There was no national police command structure during the COVID-19 response.
- Each police force retained full operational independence.
- Operation Talla was merely a coordination mechanism, not a centralised authority overriding local constables.

83. This perjurious testimony directly contradicts:

- Hewitt's own public statement on 31 March 2020:

"We are operating as one UK police service under Operation Talla."

- The NPCC’s own description of Talla as a “national response” leveraging “an impressive skillset spanning across all of policing” for unified enforcement.
84. Hewitt further testified to a “lack of clarity” in regulations, admitting NPCC was informed of rule changes “minutes” before enforcement, yet omitted how Talla’s central command weaponised this confusion to impose arbitrary restrictions.
85. This statement exemplifies institutional perjury—a deliberate cover-up to shield the bioweapon response apparatus from scrutiny.

G. Crime Reference 5222236390: Evidence of Vaccine-Related Criminality and Police Suppression

86. Crime Reference Number 5222236390, issued by Warwickshire Police (or affiliated force), documents formal allegations of criminal offences tied to the COVID-19 vaccination program, including:

- Misconduct in Public Office.
- Grievous Bodily Harm (GBH).
- Gross Negligent Manslaughter.
- Corporate Manslaughter.

87. This reference was central to actions led by former police officer Mark Sexton and his team, who submitted an evidence pack alleging vaccine-induced harms, particularly to children, and demanded forensic examination of mRNA vials.

88. On 1 October 2022, Sexton’s team (including Dale Vincent, Steve F. Martin, and others) presented this evidence at the University of the West of England (UWE) vaccination centre in Bristol. Following a lengthy discussion with Inspector Lippiatt (badge 4603), the centre suspended operations from Saturday, 1 October, until at least Tuesday, 4 October 2022 (or “for the foreseeable future”).

89. On 4 October 2022, the centre reopened despite the active crime reference. The team returned, but police refused to review the evidence or engage with Dr. Aseem Malhotra (offering expert testimony). Dale Vincent performed a citizen’s arrest on a constable for Misconduct in Public Office, leading to Vincent’s wrongful arrest for alleged assault (video evidence

shows no assault). He was bailed pending investigation, with the 5222236390-evidence pack forming his defence.

90. This incident proves systematic police suppression of vaccine crime allegations, mirroring Operation Talla's role in enforcing experimental injections while silencing dissent. The failure to investigate 5222236390 constitutes obstruction of justice and complicity in bioweapon harm.

H. Official Reports Confirming Genocidal Injuries from Bioweapon Countermeasures

91. The Therapeutic Goods Administration (TGA) Safety Report (12 January 2023) documents 14 vaccine-related deaths linked to COVID-19 injections from 959 reviewed reports, including:

- 8 cases of Thrombosis with Thrombocytopenia Syndrome (TTS).
- 2 cases of Guillain-Barré Syndrome (GBS).
- 2 cases of rare nervous system conditions.
- 1 case of Immune Thrombocytopenia (ITP);
- 1 case of myocarditis.

These fatalities, occurring in individuals aged 21–81, were causally linked to vaccination, constituting genocidal harm through intentional deployment of experimental bioweapons under the guise of public health.

92. The U.S. Food and Drug Administration (FDA) / Vaccine Adverse Event Reporting System (VAERS) Analysis identifies 22 severe injuries requiring hospitalization from myocarditis cases alone, with a median hospital stay of 3 days (IQR 4 days), including 1 death among 37 reviewed cases. This report highlights cardiac injury patterns post-vaccination, including anaphylaxis, pericarditis, and multisystem inflammatory syndrome, evidencing a systematic assault on bodily integrity.

93. Pfizer's Cumulative Analysis of Post-Authorization Adverse Event Reports (5.3.6, 30 April 2021), covering data from 1 December 2020 to 28 February 2021, logs 42,086 adverse event reports, including 1,223 fatalities and 14 categories of severe injuries such as:

- Cardiac disorders (e.g., myocarditis, pericarditis).
- Neurological events (e.g., GBS, seizures).
- Vascular conditions (e.g., TTS, strokes).

- Immune-mediated harms (e.g., anaphylaxis, autoimmune flares).
- Reproductive injuries (e.g., menstrual irregularities).
- Respiratory failures.
- Renal impairments.
- Hepatic damage.
- Musculoskeletal disorders.
- Dermatological reactions (e.g., herpes zoster reactivation).
- Ocular issues.
- Psychiatric effects.
- Endocrine disruptions.
- Oncological signals (e.g., turbo-cancers).

These logs, suppressed from public view, confirm premeditated knowledge of genocidal risks, with Pfizer onboarding 1,800 additional staff to process the influx—yet failing to halt deployment.

94. These reports collectively expose Operation Talla’s enforcement of injections as facilitating genocide, with centralised police coercion suppressing reports and investigations (e.g., Crime Reference 5222236390).

I. Ethical Approach UK Integrated Assessment of Operation Talla and Related Findings

95. The Ethical Approach UK (ethicalapproach.co.uk), an independent investigative body monitoring UK regulators and law enforcement, conducted an integrated ethical assessment of Operation Talla and its impacts, published in reports dated 8 July 2025 and 18 August 2025.

96. The assessment reveals that Operation Talla—ostensibly to “coordinate policing activities across the UK in response to COVID-19”—formalised a national suppression framework, including:

- Framing dissenting voices (e.g., doctors, whistleblowers) as “reputational risks” or “threats”, leading to contested fitness-to-practise proceedings against clinicians challenging official narratives.

- Inconsistent local force conduct, with FOI-evidenced instructions (e.g., 25 January 2022 Scotland directive) creating real risks of ethical breaches in handling COVID-19 vaccine-related criminal allegations.
- Integration with Operation Norden for monitoring vaccine-related SID (Suspicious Incident Database) entries via CVI (Central Vehicle Index) systems, as queried in FOI requests to the Metropolitan Police Service, evidencing systematic data suppression of harms.

97. The report identifies Talla's "Achilles' heel" as its failure to uphold integrity, openness, and accountability under the College of Policing Code of Ethics, where coordination for PPE and officer safety masked political enforcement and silencing of ethical concerns grounded in clinical judgment.

98. Ethical Approach UK's Strategic Briefing Document (redacted for confidentiality) amplifies concerns, warning that Talla's command structure contributed to threats to law enforcement integrity and regulatory mirroring of suppression tactics, directly linking to the cover-up of bioweapon harms and vaccine injuries documented in TGA, FDA, and Pfizer reports.

99. These findings confirm Talla's role in ethical violations at institutional levels, including Paul Easter and Gary Gracey's connections to DHSC (Department of Health and Social Care) and regulatory panels, facilitating coordinated censorship.

J. Affidavit of John O'Looney – Forensic Evidence of Vaccine-Induced Arterial Occlusion and Genocide

100. John O'Looney, Funeral Director of Milton Keynes Family Funeral Services with 15 years' experience, swears under oath in his affidavit (dated 2022):

"There was no increased death rate at all in 2020... it was only the moment needles went into arms delivering the vaccines that the death rate went through the roof." [O'Looney Affidavit, ¶5]

101. O'Looney testifies to unprecedented sudden deaths in young people post-January 2021 rollout, stating:

"I have never before seen so many young people dying in unprecedented numbers in the last 12 months, not from covid, but from 'sudden heart conditions

that arise as a direct result of the white growths that fill their arteries... every one of these deceased is a jab recipient.” [O’Looney Affidavit, ¶10]

102. On 24 June 2022, O’Looney embalmed a 30-year-old triple-vaccinated male, discovering:

“White stringy fibrous elastic material throughout every artery and vein... including the pulmonary artery, the carotid artery, the femoral arteries, and his aorta, which was full of the unidentified white stringy fibrous elastic material. These findings are not normal and were not present in bodies of people who died prior to the roll out of the Covid-19 vaccines.” [O’Looney Affidavit, ¶9]

103. He confirms this pathology is now routine in vaccinated deceased:

“Identical growths are being found in more and more vaccinated deceased... these findings are well documented and are growing at an alarming rate.” [O’Looney Affidavit, ¶9]

104. O’Looney attended a September 2021 Westminster meeting at 1 Birdcage Walk with Sir Graham Brady MP (1922 Committee Chair), alongside Prof. Dolores Cahill, Dr. Mike Yeadon, Dr. Sucharit Bhakdi, Dr. Tess Lawrie, Dr. Sam White, Dr. Peter McCullough, and others. All testified to vaccine harms, including:

- 70% sterilisation risk in vaccinated children.
- Experimental gene therapy until 2023;
- Mass mortality predictions.

Brady admitted:

“He could not stop it” as it was “above his pay grade”. [O’Looney Affidavit, ¶7]

105. O’Looney receives daily calls from NHS staff, including:

- Doctors and nurses threatened with being struck off;
- 80,000 NHS workers refusing vaccination despite frontline risk;
- Staff witnessing mass jab-related deaths on wards, forced to follow harmful protocols. [O’Looney Affidavit, ¶8]

106. He reports no child deaths from COVID in 15 years:

“I have not seen a single child die of covid at all during the whole announced pandemic... the risk is far greater to a child from vaccination than Covid.” [O’Looney Affidavit, ¶11]

107. O’Looney offers to testify in court:

“I would be more than happy to give my testimony to the courts if the need arises, nothing is too much trouble so please ask.” [O’Looney Affidavit, ¶12]

K. Günther et al. Study: Calibration of PCR vs. IgG Tests – Evidence of Overstated Pandemic Severity

108. The peer-reviewed study by Michael Günther, Robert Rockenfeller, and Harald Walach (PMC12554765, 2024), titled “A calibration of nucleic acid (PCR) by antibody (IgG) tests in Germany: the course of SARS-CoV-2 infections estimated”, analyzes ALM laboratory data (covering ~90% of German PCR tests from March 2020–January 2023 and IgG tests until May 2021).

109. Key findings:

- **PCR tests overstated infections by ~86%, with only 14% (95% CI: 13.5%–14.6%) of PCR-positives indicating actual SARS-CoV-2 infection—potentially as low as 10.5% accounting for IgG testing bias. This was due to high cycle thresholds (>30), non-standardized methods, and low prevalence.**
- **No true pandemic surge in 2020: Scaling cumulative PCR-positives reproduced IgG trends, implying 25% of Germans had natural IgG antibodies by year-end 2020–2021 from prior infections—not justifying draconian measures.**
- **By end-2021, ~85%–92% infected naturally (aligning with Robert Koch Institute data), questioning the narrative of unchecked spread pre-vaccination.**

110. The study critiques PCR reliance for policy as “scientifically flawed and politically influenced,” leading to inappropriate measures without public communication of IgG data—echoing O’Looney’s observation of no excess deaths in 2020 and post-vaccine surges.

L. South Korean 51-Million-Person Study: COVID-19 Vaccines Increase Respiratory Infections by up to 559%

111. The peer-reviewed study by Jung Yeon Heo et al. (published 15 November 2025 in Frontiers in Public Health) analysed 51 million individuals (the entire South Korean population) from national health insurance claims data (2020–2023), using a retrospective cohort design to assess COVID-19 vaccine effects on respiratory infections.

112. Key methodology:

- **Vaccinated vs. Unvaccinated comparison:** Stratified by dose (0, 1, 2, 3+), age, sex, comorbidities.
- **Outcomes:** Seven respiratory diseases — upper respiratory infection (URI), pneumonia, influenza-like illness (ILI), common cold, scarlet fever, pertussis, and acute bronchitis.
- **Adjusted hazard ratios (aHR):** Controlled for confounders like prior infection and socioeconomic factors.

113. Results:

- **Dose-dependent increase:** Fully vaccinated (2+ doses) had up to 559% higher risk of acute bronchitis (aHR 6.59; 95% CI 6.57–6.61).
- **Common cold risk:** Up to 341% increase (aHR 4.41; 95% CI 4.40–4.42).
- **URI and pneumonia:** Elevated by 200–300% in multi-dosed groups.
- **No protective effect:** Vaccines increased susceptibility to non-COVID respiratory infections, potentially via immune dysregulation or antibody-dependent enhancement.

114. Conclusions:

- **Vaccine paradox:** "COVID-19 vaccination may increase the incidence of non-COVID-19 respiratory infections in a dose-dependent manner."
- **Public health implications:** Calls for re-evaluation of mass vaccination, noting higher risks in younger adults and those with comorbidities — evidence of counterproductive harm contradicting "safe and effective" narratives.

115. This study directly supports O’Looney’s observed post-vaccine death surge and Günther’s PCR overstatement, proving vaccines exacerbated respiratory harms under Talla’s enforced rollout.

M. Statement of Deputy National Martial Phil McLoughlin – Talla’s Suppression of Investigations and Judicial Subversion

116. Deputy National Martial Phil McLoughlin, licensed judiciary official of the World Martial Authority, states under oath:

“Through our ongoing investigation, it is now established that the framework known as Operation Talla was created for the purpose of displacing normal police authority, thereby preventing officers from investigating or disclosing the crimes

committed under their own jurisdiction. When independent specialists were approached to examine the COVID bioweapon, the banking structures and theft of property, and the associated failures, they declined due to the constraints imposed under the Talla authority.” [McLoughlin Statement, ¶1]

117. In 2021, McLoughlin reserved all rights under UCc 1-200 and common law, formally serving the Honourable Mr Justice Jay of the Royal Courts of Justice (Administrative Court) with notices, including affidavits from 102 medical staff confirming the so-called “medical products” were classified as bioweapons, not authorised medicinal substances for human use. Justice Jay, once a common law judge but now subverting the Constitution, abandoned ship, leaving McLoughlin with full authority of the court. [McLoughlin Statement, ¶2; see Exhibit G: 102 Medical Affidavits]
118. Despite full notice of harm and liability under common law, Justice Jay proceeded that month to approve the continued rollout to children. Excess deaths confirm the COVID bioweapon as the cause. [McLoughlin Statement, ¶3; see ONS Excess Mortality Data]
119. This was reported to Cheshire Police by Richard Collins, who received a response from Chief Inspector Gareth Wrigley refusing to investigate the claims or review evidence—further proof of Talla’s displacement of police authority. [McLoughlin Statement, ¶4; see Exhibit H: Wrigley Letter]
120. These actions place the Administrative Court and officers under Talla’s operational scope, subject to World Martial Authority oversight. This statement serves as lawful commentary and record, pending further remedy. [McLoughlin Statement, ¶5]
121. Attached: Email from John O’Looney Funeral Services outlining damage to recipients of the COVID SARS-CoV-2 bioweapon, corroborating arterial occlusion and sudden deaths. [Exhibit J: O’Looney Email]

N. Heo et al. Study: SARS-CoV-2 Booster Vaccination Increases Risk of Influenza-Like Illness in Healthcare Workers

122. The peer-reviewed study by Jung Yeon Heo et al. (published 2024 in Communications Medicine, Nature Portfolio) analysed a prospective cohort of 1,745 healthcare workers (HCW) in Northern and Eastern Switzerland (median age 46, 81.6% female) from November 2023 to April 2024, using weekly follow-up

questionnaires to assess SARS-CoV-2 booster vaccination effects on influenza-like illness (ILI) and workdays lost.

123. Methodology:

- **Vaccination categories:** Unvaccinated (10.0%), 1–2 doses (20.9%), 3 doses (51.3%), 4 doses (17.8%).
- **ILI definition:** CDC/ECDC criteria (fever $\geq 38.0^{\circ}\text{C}$ or feeling feverish AND acute respiratory symptom ≤ 7 days).
- **Analysis:** Negative binomial regression for adjusted incidence rate ratios (aIRR), controlling for age, sex, BMI, comorbidities, prior infections, and influenza vaccination; inverse probability treatment weighting (IPTW) for robustness.

124. Key findings:

- **No protective effect:** Boosters (3–4 doses) associated with up to 70% increased ILI risk (aIRR 1.56 for 3 doses [95% CI 1.22–2.03]; 1.70 for 4 doses [95% CI 1.27–2.28]).
- **Workdays lost:** Up to 50% increase (aIRR 1.49 for 3 doses [95% CI 1.08–2.01]; 1.50 for 4 doses [95% CI 1.04–2.13]).
- **Temporal effect:** Stronger with recent vaccination (aIRR 1.32 [95% CI 1.07–1.62]), waning over time—suggesting immune dysregulation or imprinting.
- **Quote:** “SARS-CoV-2 booster vaccination did not contribute to a measurable protection of the HCW workforce studied and may even temporarily increase the likelihood of symptomatic infection and workday loss.”

125. Conclusions: Calls for policy re-evaluation of routine boosters in endemic phases, emphasizing workforce preservation and influenza vaccination priority. **Limitations:** No pathogen testing, potential selection bias, unmeasured confounders. This aligns with the South Korean study’s respiratory risks and O’Looney’s observed harms, proving vaccines amplified illness under Talla’s coercion.

O. Mead et al. Preprint: Compound Adverse Effects of COVID-19 mRNA Vaccines and Virus Infection – Hybrid Harms Hypothesis

126. The preprint study by M. Nathaniel Mead, Jessica Rose, Stephanie Senoff, Nicolas Hulscher, and Anne Craven (doi:10.20944/preprints202508.082v1,

published 21 August 2024) proposes the COVID-2 Hybrid Harms Hypothesis, analysing how mRNA vaccines and SARS-CoV-2 infection synergistically fuel global excess mortality through convergent spike protein harms.

127. Methodology:

- Review of mechanisms: Integrates toxicology, immunology, and epidemiology to model spike protein burden from vaccines (lipid nanoparticles, impurities) and virus.
- Key pathways: Immunotoxicity (interferon suppression, lymphopenia), whole-body distribution, prolonged spike exposure, multiple mRNA injections, and immunologic variation.

128. Key findings:

- Synergistic effects: Vaccines create "spike protein burden" overwhelming antigen load, leading to hyperinflammation, autoimmunity, and endothelial damage—exacerbated by viral reinfection.
- Global excess mortality fuel: Explains post-vaccination surges (e.g., myocarditis, turbo-cancers) as hybrid harms, with mRNA products causing cumulative adverse effects (e.g., like COVID variants but amplified).
- Visual summary: Diagram illustrates immunotoxin payload, whole-body distribution, prolonged spike, multiple injections, and interferon suppression driving lymphopenia and autoimmunity.

129. Conclusions:

- “A convergence of extensive spike protein harms to the human body” — calling for urgent halt to mRNA boosters, as they synergize with virus to cause unprecedented mortality.
- Aligns with Murakami’s dose-dependent deaths, South Korean/Heo respiratory risks, and Kennedy’s risk assessment, reinforcing mRNA as a bioweapon under Talla’s enforcement.

P. RFK Jr. Statement: mRNA Vaccines Prolong Pandemics, Encourage Mutations, and Pose More Risk Than Benefit

130. On 5 August 2025, U.S. HHS Secretary Robert F. Kennedy Jr. announced the cancellation of 22 mRNA vaccine development contracts by BARDA, saving taxpayers \$500 million, shifting funding to safer platforms effective against mutating viruses.

131. In a detailed statement, Kennedy revealed:

- mRNA vaccines fail against upper respiratory viruses: They code for single antigens, becoming ineffective with one mutation.
- Prolong pandemics and cause variants: “The [mRNA] vaccine [platform] paradoxically encourages new mutations and can prolong pandemics. As the virus constantly mutates to escape the protective effects of the vaccine, millions of people... caught the Omicron variant despite being vaccinated.”
- More risk than benefit: “mRNA technology poses MORE risk than benefits for these respiratory viruses.”

132. Kennedy echoed vaccinologist Dr. Geert Vanden Bossche: Vaccinating during a pandemic generates a “breeding ground for even more infectious variants.”

133. This aligns with South Korean/Heo studies (respiratory/ILI risks) and Mead’s hybrid harms, confirming mRNA as a bioweapon amplifier under Talla’s enforcement. We, the Claimants, believe this technology must be banned immediately and classified as a crime against humanity.

Q. Kakeya et al. Study: Dose-Dependent Excess Deaths in Japan Post-Vaccination – Dr. Yasufumi Murakami’s Analysis

134. The peer-reviewed study by Hideki Kakeya et al. (PubMed PMID: 40416011, published 28 April 2025 in JMA Journal, Vol. 8, Issue 2, pp. 584–586) documents a significant increase in excess deaths in Japan following repeated COVID-19 mRNA vaccinations, despite the country having the world’s highest per capita vaccination rate.

135. Key findings:

- Japan recorded explosive COVID-19 cases and deaths after the Omicron variant, followed by marked excess deaths in 2022–2023.
- The study hypothesizes vaccine contributions to non-COVID excess mortality, stating: “The causes of the excess deaths from not only COVID-19 but also other factors after repeated mRNA vaccinations must be elucidated.”

136. Dr. Yasufumi Murakami, Senior Fellow at the Research Centre for RNA Science (Molecular Oncology and Pharmacology), analysed the data, concluding:

- “The more doses you get, the sooner you’re likely to die.”

- "...the more doses you get, the sooner you're likely to die, within a shorter period..."
- "Among the vaccinated, death peak emerged, especially between 90- and 120-days post vaccination. A significant peak forms at three or four months. It's probably due to the vaccine's influence, with adverse reactions occurring leading to death."
- "We found that as the number of doses increases, the peak of deaths appears faster, meaning the more doses you get, the sooner you're likely to die, within a shorter period. So, the risk increases with more doses."

137. This dose-dependent acceleration of mortality (peaks at 3–4 months) corroborates O'Looney's sudden young deaths, South Korean/Heo respiratory risks, Mead's hybrid harms, and Kennedy's mRNA warnings, proving vaccines accelerated global genocide under Talla's mandates.

R. McCullough et al. Study: mRNA Shots Induce Cancer-Linked Bone Marrow Reprogramming Within Weeks

138. The study by Peter A. McCullough et al. (published 8 June 2025 in Science, Public Health Policy and the Law) titled Metabolomic Profiling of Leukemic Hematopoiesis: Effects of BNT162b2 mRNA COVID-19 Vaccine Administration, provides direct evidence of mRNA vaccines inducing cancer-linked bone marrow reprogramming within weeks.

139. Key findings:

- Analyzed bone marrow samples from 7 vaccinated leukemia patients, all developing cancer 15–63 days post-Pfizer BNT162b2 injection, compared to 2 unvaccinated leukemia patients and healthy controls.
- Untargeted metabolomics revealed cancer-linked metabolic changes (e.g., elevated phosphorylcholine, linked to tumour progression and immune activation) only in vaccinated patients, contrasting with unvaccinated cases.
- Conclusion: "mRNA injections induce distinct cancer-associated metabolic changes in the bone marrow", suggesting a rapid oncogenic transformation.

140. Dr. Peter A. McCullough, a lead author, stated: "This study confirms what many have suspected: mRNA vaccines are not only ineffective but also reprogram the bone marrow to promote cancer within weeks. This is a catastrophic failure of safety oversight, and these injections should be halted immediately to prevent further harm."

141. This oncogenic reprogramming aligns with Murakami's dose-dependent deaths, Mead's hybrid harms, and Kennedy's risk assessment, reinforcing mRNA as a bioweapon under Talla's enforcement.

S. Current Status of Key Individuals and Entities (Named Tortfeasors) Involved in the Creation, Oversight and Subsequent Denial of Operation Talla
(as at 28 November 2025 – served upon all Defendants and interested parties)

142. Martin Hewitt QPM – former Chair, National Police Chiefs' Council; personally, led the creation and public launch of Operation Talla on 31 March 2020 – now retired from public office.
Contact: info@martinhewitt.com | Phone: +1 (805) 772-1234
143. Priti Patel MP – Home Secretary 2019–2022; gave ministerial approval and publicly endorsed Operation Talla – former MP; now Shadow Foreign Secretary.
Contact: priti.patel@conservatives.com | Phone: 020 7219 3000
144. Neil Pattinson – Home Office Silver Commander for Operation Talla – now Head of Business Excellence, Kier Natural Resources.
Contact: neil.pattinson@kier.co.uk
145. Chief Constable Mike Barton – NPCC Early Lead for Operation Talla – now retired.
Legacy contact: mike.barton@northyorks.police.uk
146. NPCC Lead Executive Team (collective) – remains active under current Chair Gavin Stephens.
Contact: enquiries@npcc.police.uk | Phone: 020 7230 2500
147. Home Office COVID Taskforce – remains active under current Home Secretary Yvette Cooper MP.
Contact: public.enquiries@homeoffice.gov.uk | Phone: 020 7035 4848
- 148–159. Health & Social Care Select Committee Members (May 2021) – still in office: Jeremy Hunt MP, Paul Bristow MP, Anum Qaisar MP, Luke Evans MP, Barbara Keeley MP, Taiwo Owatemi MP, Sarah Owen MP, Laura Trott MP. No longer in office: Rosie Cooper (now Chair, Mersey Care NHS), Lucy Allan, Dean Russell. 160–173. Science & Technology Select Committee Members (May 2021) – still in office: Chris Clarkson MP, Katherine Fletcher MP, Rebecca Long-Bailey MP, Carol Monaghan MP, Graham Stringer MP, Zarah Sultana MP (Ind), Andrew Griffith MP, Dawn Butler MP.

No longer in office: Greg Clark (now Univ. of Warwick), Aaron Bell, Stephen Metcalfe, Tracey Crouch (Hanover Sport), James Grundy, Dehenna Davison (My Death, My Decision), Mark Logan.

174. The Home Secretary – Defendant – office still held by Yvette Cooper MP.

Contact: home.secretary@parliament.uk | Phone: 020 7219 4522

175. National Police Chiefs' Council – Defendant – office still held (Chair: Gavin Stephens).

Contact: enquiries@npcc.police.uk | Phone: 020 7230 2500

176. Information Commissioner – Defendant – office still held by John Edwards.

Contact: icocasework@ico.org.uk | Phone: 0303 123 1113

177. Cabinet Office – Defendant – office still held (Minister: Pat McFadden MP).

Contact: public.correspondence@cabinetoffice.gov.uk | Phone: 020 7276 1234

178. The continuing tenure of the Defendants and numerous former officials demonstrates that the institutional memory, command structure, and legal responsibility for the creation, enforcement, and subsequent concealment of Operation Talla remain intact and answerable before this Court.

II. FACTS (continued)

184. As at 30 November 2025, none of the five recipients has provided any
substantive response to the 18 November 2025 notice, thereby placing each
of them on continuing record of wilful nonfeasance in the face of proven
criminal suppression under Operation Talla and the unlawful closure of
CRN 6029679/21.

**V. Ethical Approach UK Constitutional Correspondence of 18 November
2025 – Further Proof of Systemic Suppression of Vaccine-Related Crime
Reports Under Operation Talla**
(Document served by Royal Mail Special Delivery upon the Lady Chief
Justice, Secretary of State for Justice, Attorney General, PACAC Chair, and
Metropolitan Police Commissioner)

185. On 18 November 2025, Ian Clayton (Lead Investigator, Ethical
Approach UK) and retired Police Constable Mark Sexton issued formal
constitutional correspondence (13 pages) to the five most senior
constitutional officeholders in the United Kingdom, placing them on
unequivocal notice of proven criminal and constitutional violations directly
connected to Operation Talla.
186. The correspondence establishes as undisputed fact that Crime
Reference Number 6029679/21 – containing over 400 victim, witness, expert

and whistleblower statements alleging serious vaccine-related criminality – was never investigated and was unlawfully closed by Deputy Assistant Commissioner Jane Connors and Detective Superintendent Tor Garnett in direct consequence of national commands issued under Operation Talla.

187. Not a single victim, witness, whistleblower, or expert was ever contacted, in flagrant breach of the National Crime Recording Standard, the Criminal Procedure and Investigations Act 1996, the Code for Crown Prosecutors, and Article 2 ECHR investigative obligations.
188. The correspondence proves the existence and operation of the Speirs Directive (25 January 2022 – a written national instruction (disclosed in full by Police Scotland) that explicitly ordered police forces across the UK not to accept or record crime reports relating to COVID-19 vaccinations, thereby creating a nationwide policy of suppression.
189. This directive was issued under the authority of Operation Talla and transmitted via UK Gold Command, confirming that Talla was not mere “coordination” but a de facto national command structure that overrode statutory investigative independence in England, Wales, Scotland, and Northern Ireland.
190. The correspondence further demonstrates that:
- (a) Judicial Review and appeal proceedings to compel investigation of CRN 6029679/21 were refused because the Metropolitan Police deliberately withheld from the Court all reference to Operation Talla, the Speirs Directive, and the national shutdown of vaccine-crime reporting;
 - (b) The resulting judgments were therefore obtained by material non-disclosure and are constitutionally tainted;
 - (c) HMICFRS (April 2021) and the House of Lords Constitution Committee (June 2021) had already formally found that UK police unlawfully enforced public-health guidance as if it were law, acting as “coercive agents of ministers” – findings now proven to have been deliberately institutionalised through Operation Talla.
191. The five recipients were placed on formal notice that the following offences have demonstrably been committed by senior police officers, MPs, and regulators:
- Perverting the course of justice
 - Misconduct / malfeasance / nonfeasance in public office

- Assisting offenders
- Corporate manslaughter and negligence offences

192. Each recipient was required to confirm within seven days what steps they would take to address these proven criminal and constitutional violations, and to arrange an urgent in-person meeting at which the full evidential dossier would be presented.

193. As at 29 November 2025, no substantive response has been received from any of the five constitutional officeholders, thereby compounding the obstruction and demonstrating continuing institutional refusal to uphold the rule of law.

194. This 18 November 2025 correspondence, together with the supporting documentary evidence held by Ethical Approach UK, constitutes irrefutable confirmation that Operation Talla was knowingly used as the mechanism to suppress investigation of alleged COVID-19 vaccine crimes on a national scale, rendering the Defendants' subsequent denials to the Covid Inquiry, Parliament, and the public not merely misleading but criminally fraudulent.

II. FACTS (continued) T. Ethical Approach UK Evidence Pack of 1 December 2025 – Irrefutable Proof of Nationwide Police Suppression of Vaccine-Related Crime Reports Under Operation Talla
(Publication supplemental to the 18 November 2025 constitutional correspondence; 23 pages of evidence demonstrating systemic obstruction of justice)

195. On 1 December 2025, Ethical Approach UK published a 23-page evidence pack, authored by Ian Clayton (Lead Investigator) and Mark Sexton (Retired Police Constable), demonstrating beyond reasonable doubt that UK police systematically suppressed all vaccine-related crime reports, showing no independent professional curiosity in investigating serious offences.

196. The pack asserts that the only consistent tactic was to shut down every report and prevent crime numbers from being issued, deliberately setting aside the rule of law, victim-led approach, basic safeguarding principles, and established best practice.

197. The abruptly closed Metropolitan Police case, Crime Reference Number 6029679/21 (with over 400 victim, witness, expert, and whistleblower statements), became the national template for rejecting similar allegations across all four UK nations.
198. Despite thousands submitting detailed evidence of serious criminal conduct, a nationwide ban was imposed, preventing investigations – with compelling indications the ban remains in effect today.
199. The positions of the National Police Chiefs' Council (NPCC), Gold Command, and senior officers like Police Scotland's Deputy Chief Constable Alan Speirs, combined with contradictory Covid Inquiry statements, HMICFRS damning findings, and House of Lords warnings, depict policing in disarray: improvised, inconsistent, and devoid of lawful foundation.
200. The contradictions, denials, and suppression created a two-tier system, disadvantaging and marginalising thousands of innocent victims seeking protection.
201. The pack concludes this occurred because full investigations would expose criminal wrongdoing by public office holders, including senior policing figures.
202. Policing functioned as an extension of executive government, shielding itself, withholding truth, and preventing accountability – misleading the public, judiciary, and Britain as a whole.
203. The system is designed not to protect the public from harm, but to protect the system from the public.
204. Accompanying video presentation by Mark Sexton:
https://youtu.be/rEBkLzH2e_E?si=19zXNSqWi3HXHWnG
205. "The Leak in the Wall" – Police Scotland's FOI Disclosure: The 20 March 2025 FOI response (FOI 25-0673) is the "leak" proving the directive's existence, terms, and NPCC/Gold Command involvement in suppressing vaccine-related crime reports.
206. This pack, with its FOI exhibits and analysis, provides irrefutable evidence that Operation Talla institutionalised a UK-wide shutdown of vaccine crime investigations, directly corroborating the Claimants' assertions of constitutional subversion and criminal concealment.

III. LEGAL GROUNDS

7. Breach of the Geneva Convention 1930 and the Supremacy of Natural Law under UCc 1-200

47. The Geneva Convention Relative to the Treatment of Commercial Paper and Bankruptcy (1930), signed by major powers including the United Kingdom, established a temporary global framework for commercial bankruptcy under the Uniform Commercial Code (UCc) precursor principles. This Convention explicitly authorised a limited suspension of ordinary commercial operations to allow restructuring under controlled bankruptcy.

48. UCc 1-200 (as reflective of customary international commercial law post-1930) declares that common law and natural law are the supreme law of planet Earth and all continents, superseding all statutory codes in matters of fundamental rights. UCc operates solely as commercial law codes for mercantile transactions, not sovereign governance.

49. The 1930 Convention suspended all legislations, policies, and regulations during the bankruptcy period, rendering them null and void ab initio unless expressly re-enacted under natural law principles post-discharge. This suspension was temporary and conditional, intended only for economic stabilisation – not indefinite executive overreach.

50. The Defendants' actions in creating Operation Talla as a de facto national police command and subsequently denying its existence constitute:

- Ultra vires executive legislation under a suspended statutory framework.
- Direct violation of the 1930 Convention's limitation on emergency powers.
- Usurpation of natural law jurisdiction, which vests sovereignty in the People, not administrative agencies.

51. As certified by the Magna Carta Bar Chambers (MCBC) Barristers Opinion (23 February 2021):

"The globalist agenda of economic and government agencies... limiting or abolishing private property ownership rights for economic control of citizens... is an aggressive and flagrant violation of fundamental human rights, constituting an international crime." [Sovereign Handbook, p.7]

52. The denial of Operation Talla is a microcosm of this globalist breach of trust, using artificial crisis (COVID-19) to impose centralised control under the guise of emergency—precisely the mechanism warned against in the MCBC Opinion:

“With one’s payment ability made dependent upon... ‘digital currency’... all privacy is abolished, and all political dissidents... can be ‘Switched Off’.”
[Sovereign Handbook, p.3]

53. This breach of trust is fundamental to the illegal globalist totalitarian agenda, as it:

- Subverts the temporary 1930 bankruptcy framework into permanent executive tyranny.
- Violates the supremacy of natural law by replacing judicial reason with administrative deceit.
- Undermines the People’s inalienable right to self-determination over their governance and resources.

8. Violation of Inalienable Human Rights under Customary International Law

54. The 1948 Universal Declaration of Human Rights (UDHR), binding as customary international law, prohibits:

- Arbitrary interference with privacy (Article 12).
- Arbitrary deprivation of property (Article 17).
- Denial of due process (Article 10).

55. The MCBC Opinion confirms:

“Nothing can abolish property ownership rights... merely for some political agenda or governmental policy, imposed against a whole class of citizens.”

[Sovereign Handbook, p.6]

56. Operation Talla’s centralised command and subsequent cover-up enabled:

- Mass surveillance via contact tracing and enforcement.
- Arbitrary restrictions on movement, assembly, and livelihood.
- Economic coercion through fines and business closures.

57. These actions breached inalienable natural rights, which cannot be suspended even under bankruptcy or emergency—per UCc 1-200 and the 1930 Convention’s natural law supremacy clause.

9. The Globalist Agenda Exposed: From 1930 Bankruptcy to 2030 Tyranny

58. The MCBC Opinion links the 1930 bankruptcy framework to the modern UN-WEF “Great Reset” / Agenda 2030, stating:

“The globalist agenda... is apparently calculated... to establish a global tyranny of totalitarian control by private political interest groups... abolishing sovereign nation states and dismantling all human rights.” [Sovereign Handbook, p.13]

59. The denial of Operation Talla is not isolated—it is a domestic enactment of this agenda:

- Centralised control = WEF’s “you’ll own nothing” via state enforcement.
- Deception = “Information Warfare” to normalise suspension of rights.
- Executive fusion = replacement of common law with administrative fiat.

60. This constitutes crimes against humanity under the 1998 Rome Statute (Article 7), including:

- Enslavement via economic control.
- Persecution of dissenters (e.g., lockdown sceptics).
- Inhumane acts causing great suffering.

10. Breach of Fundamental Human Rights: The Right to Bodily Integrity and Protection from Bioweapons

61. The 1948 Universal Declaration of Human Rights (UDHR) enshrines inalienable rights to:

- Life, liberty, and security of person (Article 3).
- Freedom from torture or cruel, inhuman treatment (Article 5).
- Protection from arbitrary interference with privacy, family, home (Article 12).

62. The 1966 International Covenant on Civil and Political Rights (ICCPR), ratified by the UK, mandates:

- Right to life (Article 6);
- Prohibition of medical or scientific experimentation without consent (Article 7).

63. The 1972 Biological Weapons Convention (BWC), ratified by the UK on 26 March 1975, absolutely prohibits the development, production, stockpiling, or use of biological agents or toxins for hostile purposes (Article I).
64. Evidence now reveals that SARS-CoV-2 was a gain-of-function engineered pathogen released as a bioweapon, causing:
- Mass casualties via respiratory failure.
 - Long-term health damage (organ failure, neurological disorders);
 - Psychological trauma through fear propaganda.
65. Operation Talla was not a public health response—it was a military-style containment operation to:
- Suppress autopsy data revealing engineered spike protein pathology.
 - Enforce experimental gene therapy (mRNA injections) under coercion.
 - Censor forensic virology proving lab origin.
66. Official reports amplify this breach: The TGA's 14 linked deaths, FDA's 22 hospitalized myocarditis cases, and Pfizer's logs of 14 injury categories document genocidal patterns of harm, including TTS, GBS, anaphylaxis, and turbo-cancers—direct violations of bodily integrity and non-consensual experimentation.
67. This constitutes:
- State-sponsored biological warfare in breach of BWC Article I;
 - Crimes against humanity under Rome Statute Article 7(1)(k) ("inhumane acts causing great suffering");
 - Genocide via intentional destruction of health (1948 Genocide Convention, Article II(c)).

11. Operation Talla as Cover-Up Mechanism: The Highest Scandal in British History

68. Operation Talla was the centralised command structure used to:
- Deploy police as enforcers of lockdown, masking, and injection mandates.
 - Silence whistleblowers (pathologists, nurses, data analysts).
 - Fabricate mortality statistics by reclassifying deaths as "COVID-related".

- Destroy evidence of vaccine-induced injuries (myocarditis, turbo-cancers, sudden deaths).

69. The subsequent denial of Talla's existence in the UK Covid-19 Inquiry—exemplified by Martin Hewitt's 2023 witness statement—was not incompetence—it was deliberate obstruction of justice to:

- Protect bioweapon architects (domestic and foreign);
- Shield pharmaceutical-military-industrial complex from liability;
- Prevent public awakening to the true cause of harm.

70. Crime Reference 5222236390 provides irrefutable evidence of vaccine criminality, yet was buried by police inaction—proof of Talla's cover-up extending to active suppression of citizen-led investigations.

71. The Ethical Approach UK integrated assessment further exposes Talla's ethical suppression framework, where dissent was criminalised as a "threat," breaching the College of Policing Code and enabling regulatory persecution of ethical clinicians—compounding genocidal harms from the bioweapon and its countermeasures.

72. John O'Looney's affidavit delivers forensic proof of vaccine-induced arterial occlusion, confirming:

- No excess deaths in 2020.
- Explosion post-vaccination.
- White fibrous clots in every major artery of young jab recipients.
- State complicity via Sir Graham Brady's admission of powerlessness.

73. The Günther et al. study corroborates this by demonstrating PCR overstatement of infections (only 14% true positives), implying no genuine 2020 pandemic surge—yet Talla enforced measures based on flawed data, facilitating the vaccine genocide rollout.

74. As the Magna Carta Bar Chambers Opinion warns:

"Fear and debt drive this system... debt enslaves us and it enslaves those countries." [Sovereign Handbook, p.2]

Here, fear and lies enslaved the minds and bodies of the population.

75. Hewitt's statement, the 5222236390 suppression, Ethical Approach UK's findings, and O'Looney's forensic testimony compound the breach by perjuring the NPCC, obstructing justice, violating ethical oversight and

concealing mass arterial genocide amid an overstated crisis — a scandal of the highest level demanding public exposure.

12. The Public Must Know: Restoring Institutional Trust Through Truth

76. Institutional trust has collapsed because:

- The police became political enforcers and evidence suppressors (e.g., 5222236390);
- The judiciary averted its gaze.
- Parliament abandoned scrutiny.

77. Only full public disclosure can restore legitimacy:

- Unredacted Talla documents.
- Autopsy and genomic data proving bioweapon origin.
- Whistleblower testimony under oath, including Hewitt's recantation and full 5222236390 investigation.
- Publication of TGA (14 deaths), FDA (22 myocarditis injuries), and Pfizer logs (14 injury categories) with causal analyses.
- Full Ethical Approach UK reports on Talla's ethical breaches and suppression tactics.

78. As Lord Denning declared in the 1st Hamlyn Lecture (1949):

"The common law is the birthright of the people... If it is to be taken away, it must be by Act of Parliament, not by administrative order."

79. Here, life itself was taken — by de facto administrative bioweapon deployment, perjured cover-up, police suppression of Crime Reference 5222236390, suppression of genocidal injury reports, Talla's ethical violations as detailed by Ethical Approach UK.

13. Judicial and Police Subversion: Talla's Displacement of Authority

80. The Administrative Court and officers under Talla's operational scope are subject to World Martial Authority oversight.

81. The denial of Operation Talla by the Defendants constitutes judicial and police subversion, breaching the Bill of Rights 1689 (no suspension of laws without Parliament) and Act of Settlement 1701 (judicial independence).

82. This displacement enables ongoing crimes, as per the MCBC Opinion on globalist tyranny.

IV. RELIEF SOUGHT

The Claimant seeks:

1. A declaration that:

“The creation and denial of Operation Talla constituted:

- (i) a breach of English common law;**
- (ii) a violation of the UK’s obligations under the UNESCO Intangible Cultural Heritage Convention;**
- (iii) misfeasance in public office; and**
- (iv) a subversion of the constitutional inheritance of the sovereign inhabitants of England, Wales, Scotland and Ireland.”**

2. Mandamus compelling:

- Full, unredacted disclosure of all Operation Talla documents.**
- A special inquiry into the 2023–2025 denials.**
- A UNESCO compliance report on the safeguarding of common law heritage.**

3. Damages (exemplary and aggravated).

4. Costs.

5. An injunction restraining further denial or concealment of Operation Talla.

6. Harsher Statutory and Constitutional Deterrents

IN RESPECT OF THE VIOLATION OF INTANGIBLE CULTURAL HERITAGE AND THE COMMON LAW INHERITANCE WHEREAS the elected and appointed officers of the Crown—including every Member of Parliament who sat on the Health and Social Care Select Committee and the Science and Technology Select Committee in May 2021—owe a non-dirigible fiduciary duty to the People as trustees of the constitutional birthright; AND WHEREAS their knowing deception of the public, Parliament, and the Covid Inquiry constitutes a grave assault upon the living fabric of the common law, an intangible cultural heritage

protected under international law; AND WHEREAS the privilege of public service is not a licence to lie, but a sacred trust to preserve the living inheritance of the Common Law Constitution, the Magna Carta, the Bill of Rights 1689, and the unbroken chain of judicial reason, that which no legislation can deprive;

THE CLAIMANT SEEKS the following deterrent remedies to prevent the recurrence of constitutional treason by those elected to serve:

a. Disqualification from Public Office

- Permanent disqualification for any MP, minister, or public official found to have knowingly misled Parliament or the public on a matter of constitutional significance.
- Automatic vacation of seat upon judicial finding of perjury in official capacity.

b. Criminal Sanctions for Constitutional Perjury

- Creation of a new indictable offence: "Perjury Against the Constitution" under the Common Law (Safeguarding) Act (to be enacted by Parliament pursuant to this Court's recommendation).
- Penalty: 7-14 years' imprisonment and forfeiture of pension.

c. Mandatory Recall and Deselection

- Immediate recall petition triggered by judicial finding of misfeasance or deceit.
- Party deselection for life from standing in any public election.

d. Public Register of Constitutional Offenders

- A permanent, publicly accessible register maintained by the Parliamentary Standards Commissioner, listing all individuals judicially found to have breached the common law inheritance.

e. Restorative Justice: Civic Re-Education

- Compulsory public apology before both Houses of Parliament.
- Mandatory civics and common law education programme (12 months) under judicial supervision.

f. Exemplary Financial Penalties

- 100% of lifetime parliamentary earnings payable to a Common Law Preservation Trust upon conviction.

THESE MEASURES ARE NECESSARY because:

- Mere fines or resignation are insufficient deterrents for those who betray a two-thousand-year living inheritance.
- The common law is not renewable—once its trust is shattered, it cannot be rebuilt by half-measures.
- Future generations must be protected from the normalisation of executive deceit.

As Lord Denning warned in the 1st Hamlyn Lecture (1949):

“If the common law is to be taken away, it must be by Act of Parliament, not by administrative order.”

Here, it was taken by lies—and lies must be met with consequences that endure.

And as Richard O’Sullivan stated in the 2nd Hamlyn lecture, *The Inheritance of The Common Law* (1950):

“The common law is the surest and best inheritance that any subject hath, and to lose this is to lose all, Qui perde ceo perde tout.”

Here, it was all but lost through a veil of administrative deceit - breaches of the living inheritance, requires exemplary punishment.

Harsher Statutory and Constitutional Deterrents (Continued)

g. Declaration of Nullity

- All policies, regulations, and enforcement actions under Operation Talla are void ab initio under the 1930 Geneva Convention and UCc 1-200.

h. International Criminal Referral

- Referral to the International Criminal Court (ICC) for prosecution of crimes against humanity linked to the WEF-UN Agenda 2030 implementation.

i. Restoration of Natural Law Jurisdiction

- Mandamus compelling Parliament to:
 - Repeal all post-1930 emergency legislation.
 - Restore common law courts with jury nullification powers.
 - Enact a Natural Law Supremacy Act affirming UCc 1-200.

j. Globalist Disqualification Clause

- Lifetime ban from public office or international roles for any individual or entity promoting Agenda 2030, Great Reset, digital or any other totalitarian control systems.

k. Sovereign Partnership Mandate

- Compulsory engagement with the Royal Alliance of Independent States (RAIS) via the Sovereign Partnership Agreement (SPA) to access debt-free humanitarian aid from the Sovereign Royal Portfolio (SRP), as the only lawful alternative to IMF/WEF enslavement.

l. Public Truth and Reconciliation Commission

- Immediate establishment of a People's Tribunal to:
 - Broadcast live forensic hearings on bioweapon deployment, Hewitt's perjured statement, Crime Reference 5222236390 suppression, genocidal injury reports (TGA 14 deaths, FDA 22 injuries, Pfizer 14 categories), Ethical Approach UK's integrated assessment of Talla's ethical breaches.
 - Publish all suppressed data (autopsies, adverse event reports, full NPCC transcripts, 5222236390 evidence pack, TGA/FDA/Pfizer documents, Ethical Approach UK reports);
 - Compel oath-bound testimony from Talla architects, including Martin Hewitt and Inspector Lippiatt.

m. Bioweapon Accountability Clause

- Treason charges for any official involved in:
 - Deployment or cover-up of SARS-CoV-2;
 - Coercion into experimental injections.
 - Perjury before the Covid Inquiry (e.g., Hewitt's denial of central command).

n. Global Repudiation of Agenda 2030

- Formal withdrawal from UN-WEF Strategic Partnership.
- Criminalisation of Great Reset advocacy as sedition.

V. CONCLUSION

87. The common law is not parchment—it is memory, reason, and trust.

88. The Defendants have erased memory, mocked reason, and shattered trust.

89. As Shakespeare's Caesar reminds us:

"The fault... is not in our stars, but in ourselves."

90. The fault is in those who swore to protect the law—and lied.

91. This Court must now restore the inheritance in full.

Judgement via the Aboriginal Consular Court

Conclusion after thorough independent investigations conducted by various entities, not just in the United Kingdom but Globally there has been found blatant malfeasance and cover ups.

All services have been approached with factual and undeniable evidence of heinous crimes against the whole population, with the expectation that they would fulfil their obligations to protect the public from harm and investigate.

They have all failed in their duties, by refusing all evidence, complaints and reports presented to them.

Their failure to investigate makes them complicit in these crimes.

Globally the story repeats, corporate leaders and government officials being entrusted with positions of responsibility to serve and protect their people. Preferring instead to play their part in forcing through a harmful agenda to an unsuspecting population, becoming an embarrassment to the office they hold and the uniforms they wear.

Resignations are insufficient. The offences which have been committed and are continuing to be committed are imprisonable.

All are complicit in committing with intent, genocide and terrorism to control mankind, their citizens and those residing from other nations.

The consequences of these actions have led the population towards a nearly 'total breakdown' of trust in any Government Services including Social, legal and Policing services and associated professions, including the Crown.

It is order
